Comments: 4/27/2017 Owner told me that internal inspection of boiler will be done by Hartford Insurance. In fact, date for internal inspection was already set with Hartford Insurance inspector. Confirmed the information with Fred Anderson, the Hartford Insurance inspector. Will no longer inspect the boiler.
6/13/2016 No inspection done. The owner was not in the location. He called to postpone the inspection because he wants to be present during the inspection. Rescheduled the inspection.

Comments:**

Per our conversation this morning, our boiler has been out of service since November of 2017. We had an incident that destroyed the facility. The boiler was not damaged and was put in storage until a few months ago. We are almost completed with the rebuilding of the facility. We will be reinstalling the boiler in or about the same spot it was previously. Upon completion of the installation we will call for inspection. Thank you for your help in this matter.

My Company Comments:
My Shared Comments: The boilers are not ready for inspection. There are four brand new 2012 Aerco hot water boilers currently in the process of installation. What the contractor wants is only a preliminary inspection to determine the requirements the boiler need to comply to be issued certificate of inspection, which I provided. The following are the assigned jurisdictional state numbers for the boilers:

NB No. 63083 AZ816023
 63046 AZ816024
 63079 AZ816025

My Company Comments:	6/27/2017 Mr. Mike Betancourt called me (6/23/2017) requesting inspection of three new boilers at their facility and I grant his request scheduling it 6/27/2017 which he agreed. However, when I was in Tucson area, he called that the installation still not done and reschedule the inspection to another.		
My Shared Comments:	4/10/2020 - Robert Brugger emailed letting me know he is trying to be compliant but due to the restrictions resulting from the coronavirus issues he may not be able to get inspectors out to his facility in time to stay current. Prima
