Training/Education Services

ADOSH training classes are results oriented. Our goal is to work with employers on developing knowledge and an understanding of occupational safety and health standards and

requirements. Safety and health training programs are designed to improve hazard recognition skills of management and employees. Also, these programs identify tools employers can use to protect their workers from having accidents and make for a more efficient and cost-effective operation. ADOSH offers a wide range of classes including regulatory reviews, safety awareness presentations, workplace assessment and safety management programs.

YOUR TRAINING PARTNER

Training is an integral part of any successful safety and health program. ADOSH can be a valuable asset to assist you in your training efforts. ADOSH publishes a quarterly

schedule of safety and health classes held at our offices and other locations throughout the state. The training programs are dynamic and constantly updated to best meet the needs of the ever-changing work environment. These programs provide employers with opportunities to help them with their safety program development activities and hazard recognition skills. By request, our classes may be conducted at your facilities.

Typical classes include:

- Machine Guarding
- Welding and Cutting
- Forklift Train-the-Trainer
- Fall Protection
- Excavation Safety Awareness
- Back Injury Prevention
- Respiratory Protection
- Electrical, Lockout/Tagout
- Hazard Communication (chemical safety)
- Bloodborne Pathogens
- Scaffold Safety Awareness
- Confined Space Entry
- OSHA in the Medical Office

RESOURCE MATERIALS

Safety and Health Video Library

ADOSH has a limited number of safety and health videos available for lending purposes. Videos are an excellent way to supplement training efforts. There is a video lending library in each of the ADOSH offices, with videos covering a wide variety of safety and health topics.

ADOSH Advocate

ADOSH's newsletter, the ADOSH Advocate is published quarterly for employers and employees. It contains valuable information on a variety of occupational safety and health topics, including the next quarter's training calendar. To receive a free copy each quarter, provide your name and mailing address to the consultation section, or e-mail it to: comments.adosh@dol.gov.

Website: www.ica.state.az.us

The Industrial Commission's web site is another resource for information to assist you with your safety and health needs. The ADOSH Advocate, training schedules, Arizona's Occupational Safety and Health poster and other information can be found on this site.

CONFERENCE PARTICIPATION

Upon request, ADOSH will gladly make personnel available to speak or otherwise participate in safety and health seminars and conferences. You may submit a request by phone, or on line.
