## FOR IMMEDIATE RELEASE

### Prop 206 and what implementation means

**05/10/2017** - With the passage of Prop 206, new minimum wage laws went into effect January 1st of 2017. A provision of Prop 206 dealing with "earned paid sick time" goes into effect July 1st of 2017.

The Industrial Commission of Arizona has submitted a [Notice of Proposed Rulemaking](#) to the Arizona Secretary of State in an effort to clearly outline the new law and ease the burden of businesses implementing these new rules.

For example, "small businesses" may now be exempt from the posting requirements of Prop 206 and a "small business" would be defined as an entity with less than \$500,000 in gross annual revenue.

You can find our updated "Frequently Asked Questions" [here](#) where additional questions you have might be answered. Should you want to comment on the proposed rules, the deadline is June 5, 2017.
