TOTAL FORMULA AMT. - $5,000.00

Mr. Atencio discussed ADOSH’s investigation, summarized the citation and proposed penalties.

Vice Chair Hennelly asked whether the employer has a fall protection plan and it was just not received by ADOSH. Mr. Atencio explained that there is no information in the file on fall protection specifically however this is not unusual for general industry.

Mr. Salas believes 29 CFR 1926.500(a)(1) does not apply since he was not around the work area. He would go in the morning before they would start and see the progress of the job, but worked mostly from the ground.

Mr. Poer and Mr. Salas discussed if Mr. Salas was on the roof on the day of the incident. Mr. Poer noted he did not think that Ms. Salas was on the roof but there could have been workers from the roof company.

Mr. Atencio confirmed with Mr. Salas that based on his testimony during the investigation, he was on the roof on Thursday for 30 minutes and the standard requires there cannot be any construction activity going on.

Mr. Poer, Mr. Atencio and Chairman Schultz discussed whether fall protection training and equipment have been provided before going on the roof. Mr. Poer noted they have lanyards available and everyone has completed the OSHA 10-Hour training within the last couple of months.

Mr. Atencio and Mr. Poer discussed if fall protection was addressed before the inspection. Mr. Poer noted that because of a prior incident, they were having daily safety inspections in all of the shops but since all the topics have been covered they are down to once a week now. Safety is the number one priority for the Mesa Public Schools and they have added cages to every skylight and making sure there are proper ladders with certifications on all campuses.

Commissioner Krenzel asked for clarification to confirm they had OSHA 10-Hour training. Mr. Poer confirmed every maintenance staff worker including inspectors, for about 150 staff members.
Commissioner Krenzel moved to amend the Citation since the employer will provide ADOSH with training information and in light of the extensive OSHA 10-Hour training, by proposing a 25% reduction for good faith for all items for a total penalty to $3,750.00. Commissioner LeMarr seconded the motion. Chairman Schultz, Vice Chair Hennelly, Commissioner LeMarr and Commissioner Krenzel voted in favor of the motion. The motion passed.

Announcements, Scheduling of Future Meetings and Retirement Resolutions.

Mr. Ashley reported that the Claims Seminar, held two weeks ago, after decades of successful in-person seminars, was the first virtual seminar, and the tally for total registrations was 849 individuals which is a very impressive turnout. He noted Mr. Laky is working on an attendance chart to indicate how many people were on at any given point during the seminar.

Mr. Ashley commented that the feedback was positive on the seminar and that the seminar survey will close on Friday so we will be able to soon have those results.

Mr. Ashley stated that while the agency did not have any virtual conference experts before the start of this, after the success of the virtual seminar there are a lot of employee experts in the building now. Mr. Ashley complimented the hard work from everybody to make this a big success and they were recognized as the recipients of the Golden Hard Hat Award this month.

Chairman Schultz commented that the staff did an incredible job and was really pleased to see how well the Q&A live sessions went. There were good solid questions and the team did a wonderful job at answering those questions. He noted it was one of the best teleconferences he had seen and congratulated Mr. Ashley and the team. He also noted he was pleasantly surprised at the ability of the speakers to adjust to that format and to include humor in their presentations which is hard to do if you do not have live feedback. He thought everyone did a terrific job and enjoyed every session. He suggested to think about a virtual seminar each year and an in-person, while he missed the in-person, with that level of participation, look at how many people we impacted.

Mr. Ashley thanked Chairman Schultz for his observations, and stated the interactions and personalities really shined through on everyone and participants enjoyed it.

Mr. Ashley highlighted the milestone for the ICA Tucson office in the goal towards achieving Voluntary Protection Program status with the remote banner signing last Monday. They will be working with the Special Services team and fulfilling all of the important steps that need to be completed to achieve VPP status for the Tucson building.
