Dear Ms. Kurth:

My name is Michael Domer. I am an orthopaedic surgeon, specializing in adult reconstruction, trauma, fracture care and sports injuries. I am licensed in Arizona as well as board certified.

I reviewed the ODC chapter on Knee and Leg. I believe the use of the guidelines reviewed will improve medical treatment for injured workers and believe they more than adequately cover the body parts and conditions I treat on a regular basis. The inclusion of evidence based medicine as a standard for treatment of injured workers will simplify my care, and give me support in my treatment decisions.

Thank you,

  
Mike Domer, MD
