To Whom It May Concern:

I am writing this email to express my support for the new proposed language changes in support of reimbursement to providers, and limiting the power and financial gain of TPA.

As a therapist with over 22 years of experience treating injured workers, I can tell you that the rehabilitation professionals work diligently to accelerate the recovery of injured workers, returning them to pre-injured status as rapidly as possible. Many times, I personally have witnessed the delays caused by TPA's, slowing this recovery process. It is also upsetting, that the rehabilitation professionals are putting in the hard work and dedication, only to have our earned reimbursement cut short by these networks, who do not directly work in the best interests of the injured worker.

Thank you for your time and consideration of this email.

Sincerely and Respectfully,
