Discussion & Action of Requests for Renewal of Self Insurance Authority

University Medical Center Corporation – Gary Norem presented staff’s renewal report along with a current Dunn and Bradstreet credit rating. Mr. Norem and Ms. Pastor responded to questions from the Commissioners. Mr. Parker questioned the adjusted denial rate and whether
the subsequently accepted claims should be subtracted from the total claims filed or just from the denials. Ms. McGrory stated that she would look into the calculations that are being used and respond back to the Commission. Mr. Delfs questioned whether the drop in the profitability ratio was a cause for concern. Ms. Pastor responded that she did not believe this was a problem since the ratio will increase when the construction has been completed and that they are increasing the number of employees. Mr. Delfs requested that staff obtain quarterly financial statements for the next year and add the company to the watch list.

Mr. Norem advised that Administration is recommending renewal of workers’ compensation self-insurance authority based on UMC’s total assets of just under $628.8 million, a clean audit report and acceptable credit ratings. The Commission unanimously granted renewal of self insurance authority on motion of Mr. Lujano, second of Mr. McCarthy and added to the motion that quarterly reports will be obtained.

Yuma County – Gary Norem presented staff’s renewal report along with current Moody’s and Fitch bond ratings and a Dunn and Bradstreet credit rating. He advised that the County is requesting that its fully funded risk management fund be approved as an alternate security to its current security. Ms. Pastor stated that the County has a solid base with internal service fund total assets of $535,679 and that the current deposit of $120,000 would be released back to them and deposited into the account. Mr. Parker explained that the County has a 55% confidence level, does not discount losses, has an actuarial report every year, and considers compensation and medical in their projections. Ms. Pastor agreed and stated that their assets are cash rather than capital assets.

Mr. Norem advised that Administration is recommending renewal of workers’ compensation self-insurance authority due to the financial strength of the County with total governmental assets of over $432 million, the financial protections afforded it as a governmental entity, the receipt of a clean audit report, acceptable ratings for revenue and debt service bonds and acceptable credit ratings. The Commission unanimously approved continuance of self insurance authority on motion of Mr. Lujano, second of Mr. Parker and added to the motion that the Commission approve the request that the fully funded risk management fund be accepted as alternate security.
